26 de d'octubre de 2022 | 12:00

Effective Scientific Presentations Workshop

26 October, 10:00 - 12:00 CET

ETSEA, Aula Sala de Graus (edif 1-a)

This workshop is designed to help students and researchers to master effective scientific presentation skills. Whether you are a complete beginner or you have some speaking experience, the course will provide you with useful hints. We will build up a very friendly, supportive, and non-judgmental environment where to practice speaking and learn from each other. After the workshop, participants will have a set of tools that will help them immediately improve their presentations and a framework for continuous improvement.

Workshop program: the program of the course includes:

What is an effective presentation?

How to structure a presentation

How to deliver the presentation that stays in people's mind

How to maximize the impact of your voice

Instructor: As a passionate speaker, Alan Crivellaro is fascinated by the pleasure of finding things out. He uses his passion for the science of the natural world to inspire students and colleagues scientists to enhance their scientific presentation. His aim is to get more and more people inspired in doing and sharing exciting science.

*** After the workshop, PhD attendees will receive a **certificate to justify the activity in the RAPI**.

*****The registration is free BUT required by mailing giada.centenaro@udl.cat [mailto:giada.centenaro@udl.cat] and specifying your name and the activity you want to attend: "workshop-effective scientific presentation".**

***Please note that the workshop is open also to Ph.D./postdocs working in other departments belonging to UdL.
So feel free to share this email with your colleagues!
